See reverse for more information.

Set Up the Pump

1. Make sure the top of the fluid column is placed at 10 inches (25.4 cm) above the top of the pump.

2. Press **Power** button.

3. Select **Clear Settings** to enter new feed parameters. Select **Keep Settings** to keep old feed parameters.

4. Load Set. Insert from bottom and snap into place. "Click"

Prime the Pump

1. Select **Prime**.

2. Select Priming Mode.

If you selected Auto Prime:
3. Wait for pump to finish priming.

If you selected Manual Prime:
4. Press and hold **Prime Feed** until fluid reaches end of tubing.

For additional operations or information, see the Kangaroo OMNI™ Enteral Feeding Pump Instructions for Use.

Start a New Feed

If you selected Clear Settings:
1. Select **Adjust Rate**.

2. Press the + and - buttons to enter the rate, then select **OK**.

3. When ready to begin feeding, select **Start**.

Pause the Feed

1. To suspend the feeding, select **Timed Pause**.

2. To resume feeding, select **Resume**. Pump will resume on its own after time expires.

Power Down the Pump

1. Press **Power** button.
